Dental Clinic for Children in Blaine County

BELLEVUE-A healthy smile can last a lifetime. Dr. Dallin Young is providing dental services for children ages 0-17 at South Central Public Health District (SCPHD) in Bellevue on March 16, 1-4 p.m. The clinic includes exams, x-rays, and fluoride varnish. He accepts most dental insurances, including Medicaid and Idaho Smiles.

Children are encouraged to see a dentist six months after the first tooth erupts, or by their first birthday. Dr. Young is a pediatric dentist and specializes in working with and treating children.

If a child is found to have cavities, they will not be filled at this clinic. Dr. Young will evaluate the best way to fix those cavities and schedule a follow-up appointment at his office in Twin Falls, at St. Luke's Wood River hospital, or at another dentist's office by referral.

Appointments are necessary for these clinics. You may schedule an appointment by calling 788-4335. The Bellevue SCPHD office is located at 117 East Ash Street in Bellevue.
