

GETTING VACCINATED IS SAFE AND CAN HELP PREVENT COVID-19

IF YOU ARE OVER THE AGE OF 65, YOU ARE NOW ELIGIBLE FOR A VACCINE

Vaccine is very limited, so it may take several weeks before you are able to make an appointment. Starting now will help get you into a clinic as soon as possible.

How to make an appointment:

Option 1: Sign up on a waitlist to receive a vaccine at your nearest public health office:

<https://www.phd5.idaho.gov/Covid-vaccine/>

Or call the COVID-19 hotline to sign up on that waitlist: 208-737-1138

Option 2: Call your medical provider and ask if they are offering the vaccine, or choose from a list of providers on our website at <https://www.phd5.idaho.gov/Covid-vaccine/>

1: IT'S SAFE

Even under emergency conditions, the FDA will only approve vaccines for release when they have evidence the vaccines are safe.

2: IT'S EFFECTIVE

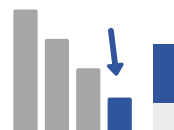

It's the most effective way to prevent getting COVID-19. Even if you get the disease, these vaccines will help prevent serious illness.

3: IT'S FREE

The vaccine is covered by federal funds. Providers may be able to charge an office visit fee but this is covered by insurance or state funds.

4: MINIMAL SIDE EFFECTS

Millions of Americans have received the vaccine and have had little to no side effects. Fever, and body aches are safe and normal reactions to a vaccine.

IF YOU ARE UNABLE TO GET TO A VACCINE APPOINTMENT ON YOUR OWN

South Central Idaho is working with the CSI Office on Aging to provide transportation for home-bound residents. Please call for more information: 208-736-2122

Please contact at least 48 hours in advance of any transportation need.
